EXPERIENCE

Machine Learning Intern

Litz Tech, Coimbatore — 10 Days

- Gained foundational understanding of machine learning concepts and basic model workflows.
- Worked on introductory ML tasks like data preprocessing, feature handling, and simple model building.
- Observed practical ML applications and project structure used in real environments.

Full Stack Development Intern

Learn Logicify Technology, Coimbatore — 25 Days

- Learned core full-stack concepts using front-end (HTML, CSS, JS) and basic back-end fundamentals.
- Assisted in building small modules, fixing UI issues, and understanding end-to-end project flow.
- Gained exposure to deployment basics, API usage, and practical development practices.

PROJECTS

ANAESTHESIA DOSAGE SYSTEM

- AI-powered system that recommends anaesthesia dosage based on patient details such as age, weight, and health conditions.
- Built using Machine Learning to improve dosage accuracy and support safer clinical decisions.
- Achieved high prediction accuracy with a simple and efficient user interface for healthcare professionals.

Real_Estate_Website:

- Built a responsive real-estate website using HTML, CSS, and JavaScript.
- Designed clean property listing pages with smooth navigation.
- Implemented search/filter UI for better user experience.

IOT Based Music Automation:

- Built an IoT system that automated music playback using sensor inputs.
- Implemented microcontroller logic for smart, hands-free control.
- Worked with a team to design and test the complete setup.
